1. Assistive Devices

People with disabilities may use their personal assistive devices when accessing our goods, services or facilities.

In cases where the assistive device presents a significant and unavoidable health or safety concern or may not be permitted for other reasons, other reasonable measures will be considered to enable the person with a disability to access our goods, services or facilities.

2. Communication

Glencore is committed to making company information and communications accessible to persons with disabilities.

We will communicate with people with disabilities in ways that take into account their disability and, upon request, will consult with such persons to determine what method of communication works for them.

3. Service Animals

We welcome people with disabilities and their service animals. Service animals are allowed on the parts of our premises that are open to the public.

When we cannot easily identify that an animal is a service animal, our staff may ask a person to provide documentation (template, letter or form) from a regulated health professional that confirms the person needs the service animal for reasons relating to their disability.

If service animals are prohibited by another law or for reasons of safety, we will do the following to ensure people with disabilities can access our goods, services or facilities:

- explain why the animal is excluded
- consult with the customer to determine if there is another reasonable and safe way of providing goods, services or accessing our facilities

4. Support Persons

A person with a disability who is accompanied by a support person will be allowed to have that person accompany them on our premises.

September 2, 2016

In certain cases, we might require a person with a disability to be accompanied by a support person for the health or safety reasons of:

- the person with a disability
- others on the premises

Before making such a decision, we will:

- consult with the person with a disability to understand their needs
- consider health or safety reasons based on available evidence
- determine if there is no other reasonable way to protect the health or safety of the person or others on the premises

5. Notice of Temporary Disruption

In the event of a planned or unexpected disruption to services or facilities for customers with disabilities, we will notify customers promptly. This clearly posted notice will include information about the reason for the disruption, its anticipated length of time, and a description of alternative facilities or services, if available.
